

From The Desk of John Dover-President

NelTrak evolved through you!

Every product or service offering within NelTech originates from feedback. We pride ourselves at being good listeners, resolute in our drive to provide solutions stemming from challenges.

In the outset, we were asked to provide a GPS Solution. We quickly realized that while there were several market alternatives, the optimal scenario embraced the convergence of companies that "get-it".

NelTrak quickly transitioned into a Brand. The critical consideration for inclusion was straightforward; Products and Services must be complimentary, be simple to integrate, and save money. Additionally, participants had to be progressive, to strive to be the best in their sphere of work.

NelTech is a partner in NelTrak. We stand proudly alongside Rogers Communications Inc., Foster Park Baskett Insurance Inc. and Webtech Wireless, proactive and "raring to go".

Our commitment remains steadfast; to introduce products and services to Oil & Gas that are streamlined, cost effective and necessary.

NelTrak is certainly all of that!

Yours truly,

John Dover
